[Format Passport For Windows And Mac](#)

END A Western Digital external hard drive can be used on both Windows and Mac OSX.. This answer explains how to format a drive in the exFAT or FAT32 file system This allows the drive to be used on both Windows and macOS.. Most WD Drives come formatted in the NTFS (Windows) or HFS+ (Mac) format For a hard drive to be able to be read and written to in both a PC and Mac computer, it must be formatted to or file format.
